

Curriculum

Victoria Park State School offers an extensive curriculum for students. We teach the 8 key Learning Areas:- English, Mathematics, Science, SOSE, HPE, The Art (Drama, Music & Visual Art) and Technology.

Increased integration of ICT's is evidenced by the fact that all classroom teachers have access to a Lap Top Computer and a data projector. Now that the school is fully wireless all students and teachers have access to the World Wide Web.

Having our own pool, HPE lessons focus on swimming in Terms 1 & 4.

We have an instrumental program for Brass, Woodwind & Percussion and a string ensemble.
